## 7000 WX-Series

Design. Build. Advance.  
On the ultimate workstation processor.

- **Leadership performance**  
Up to 96 high frequency “Zen 4” cores deliver full spectrum performance to help accelerate the world’s most demanding creative workflows.
- **Ultimate professional platform**  
Highly expandable platform with 128 PCIe® Gen5 lanes to accelerate GPU compute and AI training.
- **Built for professionals**  
World-class security features, manageability, and reliability.
